

Bosch GAX18V-30 18V/12V Dual Bay Charger and Bosch GAA18V-24 18V Portable Power Adapter Provide Convenient Jobsite Charging

Bosch GAX18V-30 18V/12V Dual Bay Charger and Bosch GAA18V-24 18V Portable Power Adapter Provide Convenient Jobsite Charging

Dual bay charger is compatible with all Bosch 18V and 12V Max Lithium-ion batteries; portable power adapter ensures mobile devices are always ready using an 18V battery

Mt. Prospect, Ill., August 29, 2017 – Speed is part of the success formula in any business and ensuring tools and devices are always powered is part of the secret. Dual-charging convenience allows Bosch users to charge 18V and 12V Max batteries simultaneously along with mobile devices using the Bosch GAX18V-30 18V/12V Dual Bay Charger. The Bosch GAA18V-24 18V Portable Power Adapter allows users to quickly power up mobile devices anywhere using an 18V Bosch battery.

- **[Click to Tweet:](#)** [@BoschToolsNA](#) Bosch GAX18V-30 18V/12V Dual Bay Charger and Bosch GAA18V-24 18V Portable Power Adapter ensure you always have cordless power on the jobsite.

“The Bosch GAX18V-30 Dual Bay Charger and the Bosch GAA18V-24 18V Portable Power Adapter provide Bosch users with convenience in two practical charging solutions,” said Theron Sherrod, product manager, cordless power tools, BOSCH POWER TOOLS. “By offering 18-volt and 12-volt battery charging plus power for mobile device batteries in one place, the GAX18V-30 gives Bosch professional power tool users an effective charging tool, not just another charger. The GAA18V-24 18V assures users that they can keep mobile devices powered when the only power source is a Bosch 18V battery.”

The dual bay charger quickly charges batteries and provides LED indicators so users can monitor charging. It charges a fully depleted Bosch 18V 4.0 Ah battery in 85 minutes and a fully depleted Bosch 12V Max 2.0 Ah battery in 45 minutes. The charger also provides a 2.4 amp max USB port to power up cell phones and other mobile devices. The Bosch GAX18V-30 18V/12V Dual Bay Charger is compatible with all Bosch 18-volt and 12-volt Lithium-ion batteries.

The Bosch GAA18V-24 18V Portable Power Adapter works with all Bosch 18V Lithium-ion batteries to deliver power to any 5V USB or 12V DC devices. It’s capable of charging two devices simultaneously.

Like all Bosch power tools, the portable power adapter is designed to withstand jobsite conditions and keep charging. Power adapter output is 2.4 amps to get phones and other devices ready to use in a hurry. If users simultaneously charge two devices each output is 1.2 Amps. The adapter has a port compatible with Bosch heated jackets, which allows users to power heated jackets with 18V Lithium-ion batteries to increase the heating zone runtime.

The Bosch GAA18V-24 18V Portable Power Adapter includes a metal belt clip for additional user convenience. It prevents overcharging by going into sleep mode after charging a device. The charger adapts to the device being charged to allow optimal charging current to the device. It has a power on button to activate the charger for each charging session and to begin powering the heated jacket.
