Lightweight tool carries big power to the jobsite; 5,850 bpm gets the job done in concrete and 1,800 rpm does the same in wood

Mt. Prospect, Ill., September 12, 2017 – Weight is important on the jobsite, especially for jobs in concrete that require long periods of drilling or chiseling. The Bosch GBH18V-20 3/4" SDS-plus® Rotary Hammer brings big power at 4,550 bpm, but weighs only 7 lbs. – a combination that assures rotary hammer toughness to get the job done, but not at the expense of user fatigue.

The Bosch GBH18V-20 rotary hammer delivers 1.3 Ft.-Lbs. of torque in a tool with three modes for drilling, hammer drilling and chiseling. No-load speed for drilling comes in at 1,800 rpm. An efficient DC motor is easy to maintain with long-lasting carbon brushes.
