Bosch Power Tools Announces Availability of New Compact 18V Barrel-Grip Jig Saw with Ergonomic Design for Controlled Cutting

The compact tool with impressive barrel-grip ergonomics is perfect for roofers, carpenters and cabinet installers

MOUNT PROSPECT, Ill. (June 22, 2021) – Bosch Power Tools today announced the availability of its 18V Barrel-Grip Jig Saw, a compact tool with impressive barrel-grip ergonomics perfect for roofers, carpenters and cabinet installers.

The barrel grip design on the new GST18V-47N gives users optimal control over the cutting application with the hand closer to the work piece and a lock on switch for further comfort, especially when cutting upside down. Its auto-stop brake features a stroke mechanism that stops immediately after the trigger is moved to the off position for increased user protection, while the LED light and blower function provide an optimal view of the cutting line for precision.

The 18V Barrel-Grip Jig Saw also boasts four pendulum stages so users can choose between fast cutting progress or cleaner cuts, a one-hand, tool-free T-shank blade-change system for easy release of the saw blade and easy blade changes, especially when hot or broken, plus speed preselection to choose the correct blade speed for specific applications.

About Robert Bosch Tool Corporation

Robert Bosch Tool Corporation, the Power Tools Division of North America, was formed in January 2003 when Robert Bosch GmbH combined its North American diverse power tool and accessories businesses into one organization. As a manufacturing pioneer with more than a century's worth of experience, the Bosch name has become synonymous with engineering excellence. Located throughout North America as part of the global power tools division, Bosch associates maintain a legacy of world-class design, manufacture and sale for power tools, rotary and oscillating tools, accessories and measuring tools. For more information, call toll-free 877-BOSCH-99 (877-267-2499) or visit www.boschtools.com.

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs 34,700 associates in more than 100 locations, as of December 31, 2020. According to preliminary figures, Bosch generated consolidated sales of $13.1 billion in the U.S., Canada and Mexico. For more information, visit www.bosch.us, www.bosch.ca and www.bosch.mx.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 394,500 associates worldwide (as of December 31, 2020). According to preliminary figures, the company generated sales of $87.1 billion in 2020. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At 126 locations across the globe, Bosch employs some

73,000 associates in research and development, as well as roughly 30,000 software engineers.
