

Bosch 12" and 14" Premium Segmented Rim Diamond Blades Combine Tensioned Blade Core with High-Quality Diamond Formulation

Bosch 12" and 14" Premium Segmented Rim Diamond Blades Combine Tensioned Blade Core with High-Quality Diamond Formulation

Reduced blade wobble and low vibration helps deliver fast, efficient and long-life cutting in concrete and masonry

Mt. Prospect, Ill., July 5, 2016 - Bosch 12" and 14" Premium Segmented Rim Diamond Blades deliver fast, efficient cutting in concrete and other hard materials thanks to a tensioned blade core and a high-quality diamond formulation. The tensioned steel core is engineered with an innovative process that ensures each blade delivers smooth cuts with low vibration to reduce blade wobble.

These general purpose segmented rim blades offer a Bosch-exclusive diamond formulation that cuts most masonry and concrete materials. The 10mm segment height provides up to 3X life versus standard diamond blades.

- **Click to Tweet:** .@BoschToolsNA premium segmented rim diamond blades cut concrete & masonry faster w/ longer life & less vibration for better cut #Powertools

Each segment is laser welded to the steel core. This is a premium connection method that offers the blade high mechanical strength and rigidity, ensuring greater stability during the cut.

Bosch 12" and 14" Premium Segmented Rim Diamond Blade reduction rings are 1" to 20mm, which allows the blade to be used on application-specific concrete-cutting saws. The drive pin ensures the blade can be used on a walk-behind saw. These blades provide long life and smooth, fast cuts in concrete and masonry.

"Bosch 12" and 14" Premium Segmented Rim Diamond Blades are the right tool for the job when cutting concrete and hard masonry materials," said Matt Van, product manager, concrete accessories, BOSCH POWER TOOLS. "Vibration and wobble are the enemies of any quality cut in hard materials. These premium segmented blades reduce that concern and deliver a smooth cut."

Bosch brings rigorous testing, both in laboratories and in the field, to its new product introductions. In addition to hands-on customer research, Bosch is the acknowledged leader in tools and accessories built specifically for the concrete market.
