

Redefine Your Limits with Bosch's New 'Chameleon': The Connected-Ready FlexiClick® 5-in-1 Drill/Driver System with CORE18V Battery

The high-torque all-in-one drill offers versatile attachments and a new level of flexibility on an 18V platform

Redefine Your Limits with Bosch's New 'Chameleon': The Connected-Ready FlexiClick® 5-in-1 Drill/Driver System with CORE18V Battery

The high-torque all-in-one drill offers versatile attachments and a new level of flexibility on an 18V platform

MOUNT PROSPECT, Ill. (March 31, 2020) — Imagine an all-in-one tool that delivers exceptional power, speed and runtime to tackle even the toughest jobs and discover the Bosch 18V FlexiClick® 5-In-1 Drill/Driver System. Now available throughout North America, the appropriately named "Chameleon" is designed for professionals who are looking for a high-torque, connected-ready drill/driver that redefines limits.

At its core, the Bosch 18V FlexiClick has a 1/4-inch hex bit holder with quick release. But the system comprises four pro-grade attachments – three that are included in the kit and one that's sold separately. Included are the ½-inch keyless right-angle chuck attachment, offset angle attachment and 1/2-inch keyless all metal chuck attachment. Available soon and sold separately is a fourth optional attachment that can transform the drill into an SDS-plus rotary hammer to enable users to drill in concrete and other tough materials. This attachment will allow users to attack projects at virtually any angle, offering easy adjustment for screw driving, drilling, right angle drilling/driving, and offset driving close to edges.

The drill offers Bluetooth® connectivity via a connectivity module (sold separately), a precision clutch and an efficient EC Brushless motor that delivers up to 535 In.-Lbs. of torque. The Chameleon also features Bosch-exclusive Kickback Control, or an integrated acceleration sensor that limits tool rotation by shutting down the motor when it detects sudden movement. This function mitigates injury risk during bind-up situations.

"The Bosch FlexiClick 5-in-1 Drill/Driver System is a versatile tool for pros on the jobsite that gets tough jobs done quickly and efficiently," said Will Shiel, product manager for Bosch Power Tools. "The 18V FlexiClick builds on the success of our 12V model, delivering outstanding versatility in a brushless, compact, high-quality drill/driver. With a variety of attachments, the user is ensured that they can get into tight work spaces and very close to edges."

The right angle chuck and the offset angle attachments can be rotated in 16 different positions using one hand and without the need to remove attachments from the tool. Also included are a locking bit holder and all-metal keyless chuck.

The 18V FlexiClick features Bluetooth® connectivity when the optional GCY30-4 Connectivity Tool Module (sold separately) is installed. This allows users to link the drill/driver to the free Bosch Toolbox app on a connected device to customize settings and provide detailed feedback for optimized tool control.

The Bosch GSR18V-535FCB15 FlexiClick Drill/Driver kit comes standard with a CORE18V 4.0 Ah battery with next-gen Li-ion 21700 cell technology and an 18V charger.

About Robert Bosch Tool Corporation

Robert Bosch Tool Corporation, the Power Tools Division of North America, was formed in January 2003 when Robert Bosch GmbH combined its North American diverse power tool and accessories businesses into one organization. As a manufacturing pioneer with more than a century's worth of experience, the Bosch name has become synonymous with engineering excellence. Located throughout North America as part of the global power tools division, Bosch associates maintain a legacy of world-class design, manufacture and sale for power tools, rotary and oscillating tools, accessories and measuring tools. For more information, call toll-free 877-BOSCH-99 (877-267-2499) or visit www.boschtools.com.

Bosch in North America

In the U.S., Canada and Mexico, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and communication systems, packaging technology, thermotechnology, household appliances, healthcare telemedicine and software solutions. For more information, please visit www.boschusa.com, www.bosch.com.mx and www.bosch.ca.

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs 35,400 associates in more than 100 locations, as of December 31, 2018. In 2018 Bosch generated consolidated sales of \$14.5 billion in the U.S., Canada and Mexico. For more information, visit twitter.com/boschusa, twitter.com/boschmexico and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 410,000 associates worldwide (as of December 31, 2018). The company generated sales of 78.5 billion euros (\$92.7 billion) in 2018. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to create solutions for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 460 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At nearly 130 locations across the globe, Bosch employs some 68,700 associates in research and development.
