Bosch GBH18V-26D 18V EC Brushless 1 In. SDS-plus® Bulldog™ Rotary Hammer Combines Light Weight, Power and Safety

Bosch GBH18V-26D 18V EC Brushless 1 In. SDS-plus® Bulldog™ Rotary Hammer Combines Light Weight, Power and Safety

Cordless rotary hammer weighs in at 5.8 Lbs. and delivers impressive 1.9 Ft.-Lbs. of impact energy to ensure strong performance on the jobsite

Mt. Prospect, Ill., April 9, 2019 – The time is always right to combine cordless performance with power and safety in a jobsite-tough rotary hammer. That's what Bosch has done with the GBH18V-26D 18V EC Brushless 1 In. SDS-plus® Bulldog™ Rotary Hammer with CORE18V battery, which combines corded-like performance with next-generation Lithium-ion 21700 cell technology.

The Bosch GBH18V-26D rotary hammer weighs 5.8 Lbs. (tool only, not including battery) and delivers 1.9 Ft.-Lbs. of impact energy (EPTA) for superior impact-to-weight ratio and advanced performance in heavy-duty drilling and chipping applications in concrete. The EC Brushless motor maximizes battery runtime for extended applications.

- **Click to Tweet**: .@BoschToolsNA GBH18V-26D 18V EC Brushless 1 In. SDS-plus® Bulldog™ Rotary Hammer is all about cordless power thanks to impressive power-to-weight ratio. #BoschBulldog

The GBH18V-26D cordless Bulldog is engineered with Bosch's KickBack Control technology, which reduces the risk of sudden tool reactions in bit bind-up situations. An integrated acceleration sensor automatically shuts the tool off to help prevent potential user injury.

And this ergonomic Bosch cordless rotary hammer offers a jobsite-proven in-line design. In addition to providing horizontal power transmission for optimized overhead, horizontal and downward drilling applications, the rotary hammer offers a soft-grip handle.

"Users are always looking for a more efficient way to get the job done on the jobsite and what better way than to employ legendary Bulldog performance in a cordless tool," said Mike Iezzi, product manager, Bosch Power Tools. "This tool is built to give users the kind of performance that they've come to expect from their corded tools in concrete, masonry and commercial construction applications.

The Bosch cordless Bulldog rotary hammer is compatible with Bosch PRO+GUARD™ dust solutions, options that provide end-to-end dust collection that helps users move toward OSHA silica dust compliance. The GBH18V-26D is compatible with an optional GDE18V-26D 18V cordless dust-extraction unit, which offers a self-contained HEPA dust solution for maximum mobility.

The Bosch GBH18V-26D Bulldog rotary hammer features a variable-speed reversing trigger for accurate bit starting.

The Bosch CORE18V battery that powers the hammer relies on 21700 cell technology for a lightweight, high-power battery with all-day performance. Bosch exclusive CoolPack 2.0 technology helps to draw heat away from battery, increasing runtime and lifetime. The result is a CORE18V battery with greater power. All Bosch batteries provide cold weather performance to -4°F. Each battery includes a fuel gauge.

Bosch Electronic Cell Protection safeguards the battery against overload, overheating and depth discharge for longer runtime.

Likewise, Bosch Electronic Motor Protection shields the motor against overload with integrated temperature management.

Bosch in North America

In the U.S., Canada and Mexico, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and communication systems, packaging technology, thermotechnology, household appliances, healthcare telemedicine and software solutions. For more information, please visit www.boschusa.com, www.bosch.com.mx and www.bosch.ca.www.boschusa.com.

About Robert Bosch Tool Corporation

Robert Bosch Tool Corporation, the Power Tools Division of North America, was formed in January 2003 when Robert Bosch GmbH combined its North American diverse power tool and accessories businesses into one organization. As a manufacturing pioneer with more than a century's worth of experience, the Bosch name has become synonymous with engineering excellence. Located throughout North America as part of the global power tools division, Bosch associates maintain a legacy of world-class design, manufacture and sale for power tools, rotary and oscillating tools, accessories and measuring tools. For more information, call toll-free 877-BOSCH-99 (877-267-2499) or visit www.boschtools.com.
