Bosch GCB10-5 Deep Cut Band Saw Makes Clean, Low-Spark 4-3/4" Cuts in Metals and Tough Materials

Bosch GCB10-5 Deep Cut Band Saw Makes Clean, Low-Spark 4-3/4" Cuts in Metals and Tough Materials

10-amp motor delivers the power to be precise

Mt. Prospect, Ill., May 2, 2017 – The Bosch GCB10-5 Deep Cut Band Saw is the easy-to-handle tool to deliver low-spark, clean cuts in rebar, conduit and other metals. These precise cuts require limited rework because the 10-amp saw is powerful enough to handle professional-sized jobs on most materials.

- **Click to Tweet**: .@BoschToolsNA GBC10-5 Deep-Cut Band Saw is just 14.5lbs, slices tough materials like rebar & copper pipe up to 4-3/4 in #Bosch #Powertools

The Bosch GCB10-5 has a 10-amp motor, which delivers precise cuts in everything from rebar to copper pipe, from steel track to threaded rod. The band saw saves time by making clean cuts that require almost no rework for burrs or tempering colors. It accommodates most common applications in a single pass thanks to a cutting depth of up to 4-3/4 in.

The tool is ergonomically designed and weighs only 14.5 lbs., allowing it to provide efficient performance in a compact package. The band saw also includes a saw hook for during-the-job storage and an LED light to illuminate the cut line for greater accuracy.

"The Bosch GCB10-5 Deep Cut Band Saw offers the light weight and compactness that users demand on the jobsite," said Mike Iezzi, product manager, BOSCH POWER TOOLS. "For most applications in electrical, mechanical, plumbing or construction trades, 4-3/4" depth more than gets the job done. It's a great tool – versatile enough for dozens of tasks on the jobsite."

The Deep Cut band saw provides nearly spark-free cuts for safer metal-cutting operation. It features variable-speed settings, so the user can match the cut rate to the material for greater precision. Settings start at 100 surface feet per minute and go up to 380 surface feet per minute.

With a compact design and weight of less than 15 pounds, this band saw is ideal for cutting tough metal in difficult areas or for extended overhead applications. The main handle provides a comfortable grip for cutting in various positions. It also has a carry handle for easy transport.
