

Bosch Power Tools Unveils New Handheld Random Orbit Sanders

Designed for professionals, Bosch's new orbit sanders are engineered for years of use delivering superior performance for tough and fine sanding and polishing jobs

MOUNT PROSPECT, Ill. (Aug. 17, 2021)— [Bosch Power Tools](#), a global leader for power tools and power tool accessories, today announced the newest entries to its line of random orbit sanders, the GEX33-5N, 5 In. Random Orbit Sander, replaces the 3725DEVS; GEX33-6N 6 In. Random Orbit Sander, replaces the 3727DEVS; and the GEX34-6N 6 In. Random Orbit Sander, replaces the ROS65VC-6.

Designed for professionals, the new orbit sanders are engineered for years of use. The sanders deliver superior performance for tough and fine sanding and polishing jobs. The rotation action coupled with side-to-side motion makes it ideal for achieving an extremely clean sanding and polishing finish with no swirl marks left behind. The orbit sanders' microfilter dust system filters fine dust particles as small as a 1/2 micron in diameter.

To ensure a strong grip of the disc while in use, the sanders employ Bosch's signature HookTight hook-and-loop disc attachment as well as an exclusive dual-bearing pad mount for less vibration. The sanders also come equipped with a variable-speed dial, which provides control from 4,500 to 12,000 orbits per minute (opm), empowering the user to match the speed of the sander to the task.

The new sanders are exclusively compatible with Multi-hole backing pads. This is due to their ability to deliver better dust collection efficiency than the competition. The Multi-hole microcellular backing pad is pliant to ensure a smooth, fine finish on both flat and contoured surfaces.

Advantages of the Multi-hole pad include:

- Optimum dust collection with all brands of sandpaper—one pad fits all
- Excellent dust efficiency decreases surface imperfections caused by excess debris
- More than twice the sandpaper lifetime due to increased dust efficiency
- For sanding disc accessories that specifically match the hole configuration of the sanders [click here](#).

About Robert Bosch Tool Corporation

Robert Bosch Tool Corporation, the Power Tools Division of North America, was formed in January 2003 when Robert Bosch GmbH combined its North American diverse power tool and accessories businesses into one organization. As a manufacturing pioneer with more than a century's worth of experience, the Bosch name has become synonymous with engineering excellence. Located throughout North America as part of the global power tools division, Bosch associates maintain a legacy of world-class design, manufacture and sale for power tools, rotary and oscillating tools, accessories and measuring tools. For more information, call toll-free 877-BOSCH-99 (877-267-2499) or visit www.boschtools.com.

Bosch in North America

In the U.S., Canada and Mexico, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and communication systems, packaging technology, thermotechnology, household appliances, healthcare telemedicine and software solutions. For more information, please visit www.boschusa.com, www.bosch.com.mx and www.bosch.ca.

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs 35,400 associates in more than 100 locations, as of December 31, 2018. In 2018 Bosch generated consolidated sales of \$14.5 billion in the U.S., Canada and Mexico. For more information, visit twitter.com/boschusa, twitter.com/boschmexico and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 410,000 associates worldwide (as of December 31, 2018). The company generated sales of 78.5 billion euros (\$92.7 billion) in 2018. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to create solutions for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 460 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At nearly 130 locations across the globe, Bosch employs some 68,700 associates in research and development.
