

Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw Incorporates Advanced Handle Design, Orbital Action to Deliver Superior Performance

Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw Incorporates Advanced Handle Design, Orbital Action to Deliver Superior Performance

Corded-like power in a tool that's well balanced and easy to use

Las Vegas, Nev., January 17, 2016 – The Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw combines an advanced handle design for greater comfort, a powerful 18-volt Bosch EC brushless motor and orbital/non-orbital action to deliver superior cutting performance. It provides next-generation corded-like power and optimized user comfort to reduce fatigue in rough cutting and demolition work.

The Bosch GSA18V-125 reciprocating saw delivers 0-2,500 strokes per minute with a 1-1/4" stroke length. The versatile soft-grip handle and easy toolless blade change system highlight enhanced comfort and ease of use. The tool features a compact 19-inch length for easy maneuverability.

The tool's compact design is aided by an angled-motor placement, which allows greater access to hard-to-reach areas. With great balance and weight of only 7.7 lbs. (tool alone), the Bosch GSA18V-125 reciprocating saw offers greater utility so users can saw overhead and in awkward positions for longer periods of time.

The Bosch GSA18V-125 reciprocating saw is the first cordless reciprocating saw to feature three orbital settings (0-1-2), which

are optimized to maximize cutting. It delivers a long and labor-saving 1-1/4" stroke that allows more material to be removed. Handy variable speed controls include a dial to set the desired maximum speed and an accelerator trigger for adjusting the operating speed, such as starting a cut.

"Professional recip saw users are always on the lookout for more power and faster results. The Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw delivers that and more in a manageable compact size," said Jim Stevens, product manager, BOSCH POWER TOOLS. "The three orbital-action settings allow optimization of the saw to ensure maximum cutting power and speed whether the job is general rough cutting or demolition of wood or metal."

The reciprocating saw provides a powerful Bosch EC Brushless motor that delivers more power, better efficiency and improved runtime over previous-generation 18-volt motors. Integrated counterbalance technology limits vibration for better handling, helping user cut through dense materials with ease.

The Bosch GSA18V-125 features a toolless blade-change system with a robust lever that allows for easier blade removal and installation, even with gloves on. A handy hanging hook keeps the tool within reach at all times. In addition, the reciprocating saw includes a bright double-LED light for greater visibility in dark or tight work areas.

The reciprocating saw includes Bosch-exclusive Electronic Cell Protection (ECP) that protects the battery against overload, overheating and deep discharge for longer life. Likewise, Bosch Electronic Motor Protection (EMP) protects the motor against overload with integrated temperature management.

To learn more about the Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw or to find a local dealer, visit www.boschtools.com or call 877-BOSCH-99. Check out www.bethepro.com for additional tips and videos.

Bosch GSA18V-125 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw Fact Box

Product	Voltage	Weight	Tool Length	Stroke	Stroke Speed	Price
Bosch GSA18V-125N 18V EC Brushless 1-1/4"-Stroke Reciprocating Saw (bare tool)	18V	7.7 lbs. (bare tool)	19 in.	1-1/4"	0-2,500 strokes per minute	US: \$299 Canada: \$409

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs some 31,000 associates in more than 100 locations, as of December 31, 2015. In 2015, Bosch generated consolidated sales of \$14 billion in the U.S., Canada and Mexico. For more information, visit www.boschusa.com, www.bosch.com.mx and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 375,000 associates worldwide (as of December 31, 2015). The company generated sales of \$78.3 billion (70.6 billion euros) in 2015. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiaries and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing and sales network covers some 150 countries. The basis for the company's future growth is its innovative strength. Bosch employs 55,800 associates in research and development at roughly 118 locations across the globe. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life."
