

Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points Offers Great Functionality for the Professional

Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points Offers Great Functionality for the Professional

Whether the job is framing or plumbing, this is the line laser for the user who only has room for one cross-line laser tool

Mt. Prospect, Ill., August 16, 2016 - For the construction or carpentry professional looking for maximum versatility in an easy-to-use leveling solution, the answer is the [Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points](#).

This all-in-one unit offers a high-visibility cross-line with two up/down laser points. The lines and points can be turned on independently or together for horizontal level, vertical level and plumb transfer applications. The laser has a visible range of 65 ft. and accuracy of 1/8"; the receiver mode allows it to work with optional Bosch line laser receivers (LR 6 or LR 7) for a working range of up to 165 ft. The unit has suitability to work both indoors and outdoors. And the laser has Bosch VisiMax™ Technology, which monitors power consumption to extend line visibility time and battery life.

Flexibility is Job One

The Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points is ideal for the multi-function user who works a variety of jobs involving leveling, aligning and plumbing. It has manual mode to lock lines for use at any angle. And the Smart Pendulum System self-levels with an accuracy up to $\pm 4^\circ$ and indicates out-of-level condition with blinking laser lines. It provides two highly visible lines and pulse functionality to work with

optional Bosch line laser receivers to extend the working range.

“The Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points is the versatile cross-line laser tool for the professional user,” said Tony Kang, product manager, measuring tools, BOSCH POWER TOOLS. “If you’re a carpenter or a plumber and only have room for one laser tool, the GCL 2-160 is it. This tool was specifically made for you.”

The GCL 2-160 includes the RM 1 Magnetic Rotating Mount, which rotates 360° and positions the vertical line to keep the unit centered on the plumb points. In addition, it has built-in magnets that secure it to metal surfaces. It’s well suited for ceiling installations, especially with the included ceiling grid clip. It has a slide-in locking base for quick and easy setup.

Added Features, Greater Ease of Use

The Bosch GCL 2-160 has a pendulum lock, which protects the laser diodes by locking the diode in place for use in angled applications, during storage or transport. The LED battery status is located on top of the tool for added user convenience.

The unit offers robust over-molded construction built to the IP54 standard, which ensures splash water/dust protection for years of dependable operation.

The Bosch GCL 2-160 Self-Leveling Cross-Line Laser with Plumb Points comes with the RM 1 magnetic mount, a ceiling grid clip, a hard carrying case, a laser target plate, and three AA batteries.
