Bosch Delivers Ultimate Portability with New 8-Inch Sliding Compound Miter Saw

osch Delivers Ultimate Portability with New 8-Inch Sliding Compound Miter Saw

M8S provides convenient, comfortable, easy sol ution for jobsite cuts

Las Vegas, November 11, 2013 – Bosch Power Tools is answering user demands for a portable, lightweight compact saw with the launch of the Bosch CM8S 8-Inch Single Bevel Sliding Compound Miter Saw. At just 37 pounds, the CM8S is the ultimate in portability and convenience for jobsite cuts.

The exclusive Bosch design delivers a well-balanced saw with a top-handle for one-handed transportation on and off jobsites. Almost half the weight of larger saws, the CM8S offers a convenient solution for remodelers, flooring contractors and woodworkers who need a portable saw. In fact, the CM8S delivers nearly the same cutting capacity as a 10-inch miter saw, but weighs 30 percent less.

Easy access controls – including a bevel lock lever and turret stops – located on the side of the tool allow users to make quick and easy adjustments for multiple cuts. A unique vertical, form-fitting trigger handle provides intuitive cutting and ambidextrous use. Soft grip on both the main handle and top carry handle provide added comfort.

An adjustable front stabilizing foot maintains saw stability when performing cuts at each level of maximum capacity: 12-1/4-inch cross-cut at 0 degrees, 8-inch miter at 45 degrees, 2-3/4-inch upright base and 3-1/2 max crown. Integrated expanding base extensions add up to 29 inches left to right of additional work piece support and retract to just 18 inches wide when not in use to maximize the tool's compact size.

The CM8S was designed to enhance user experience with better line of sight. A clear lower guard provides an unobstructed view unlike other miter saws on the market. A large, easy-to-read miter scale gives users uniform marks from 52 degrees left to 60 degrees right. Ten adjustable miter detents are set at the most common cuts, and an intuitive, easy-to-access thumb-activated detent override allows accurate adjustment when cutting near detents. The CM8S also offers a powerful 12 amp, 5,600 RPM motor to delivering optimal performance.

The CM8S is available now at authorized dealers nationwide. For a suggested retail price of $469, the CM8S includes a 48T blade, blade wrench and dust bag. To find out more or to locate a dealer, visit www.boschtools.com or call 877-BOSCH-99.

About Bosch:

The Bosch Group is a leading global supplier of technology and services, active in the fields of automotive technology, energy and building technology, industrial technology, and consumer goods. According to preliminary figures, more than 306,000 associates generated sales of 52.3 billion euros ($67.2 billion) in 2012. The Bosch Group comprises Robert Bosch GmbH and its more than 350 subsidiaries and regional companies in some 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Bosch spent some 4.5 billion euros ($5.8 billion) for research and development in 2012, and applied for over 4,700 patents worldwide.
