

Bosch Power Tools Updates Tuckpointing Grinder with Focus on Power, Durability, and Dust Capture Capabilities

The new high-torque grinder significantly boosts the power over the previous model. Plus, its specially designed, spring-loaded guard maximizes dust capture.

MOUNT PROSPECT, III. (Aug. 26, 2021)—[Bosch Power Tools](#), a global leader for power tools and power tool accessories, today announced a new version of its 5-inch high-powered, high torque dedicated tuckpointing grinder and dust guard. The model GWS13-52TG is designed to replace the 1775E.

This new high-torque grinder with a dust guard is designed specifically for tuckpointing. It significantly boosts the power over the previous model from 8.5-amp motor to a 13-amp motor, producing 9,300 RPM.

The GWS13-52TG is engineered for high performance and improved durability with a metal guard mounting flange collar, dust protection with directed airflow and an enclosed spring-loaded guard for maximum dust capture. The new model is ideal for tuckpointers for the removal of brick mortar.

Features include:

- Motor is protected from dust and debris with epoxy-coated field windings and four-stage dust seals protect the gears and help ensure longer tool life
- Constant electronic monitoring provides level operation and reliable speed under load
- A viewing window on the dust guard makes it easy to see the cutting line
- 1-3/8 inch dust port is designed to accommodate Bosch vacuum hose nozzles, but adapters (sold separately) are available to fit other vacuum hose nozzles
- Works with Bosch PRO+GUARD Dust Solutions, an end-to-end dust-collection system that helps users move toward OSHA silica dust compliance
- The tool-free guard adjustment allows full access to the diamond blade for quick and easy blade changes
- The specially designed, spring-loaded guard maximizes dust capture during mortar or concrete cutting applications, even during plunge cuts

About Robert Bosch Tool Corporation

Robert Bosch Tool Corporation, the Power Tools Division of North America, was formed in January 2003 when Robert Bosch GmbH combined its North American diverse power tool and accessories businesses into one organization. As a manufacturing pioneer with more than a century's worth of experience, the Bosch name has become synonymous with engineering excellence. Located throughout North America as part of the global power tools division, Bosch associates maintain a legacy of world-class design, manufacture and sale for power tools, rotary and oscillating tools, accessories and measuring tools. For more information, call toll-free 877-BOSCH-99 (877-267-2499) or visit [www.boschtools.com](#).

In the U.S., Canada and Mexico, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and communication systems, packaging technology, thermotechnology, household appliances, healthcare telemedicine and software solutions. For more information, please visit www.boschusa.com, www.bosch.com.mx and www.bosch.ca.www.boschusa.com.

About Bosch

Having established a regional presence in 1906 in North America, the Bosch Group employs 35,400 associates in more than 100 locations, as of December 31, 2018. In 2018 Bosch generated consolidated sales of \$14.5 billion in the U.S., Canada and Mexico. For more information, visit twitter.com/boschusa, twitter.com/boschmexico and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 410,000 associates worldwide (as of December 31, 2018). The company generated sales of 78.5 billion euros (\$92.7 billion) in 2018. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to create solutions for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 460 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At nearly 130 locations across the globe, Bosch employs some 68,700 associates in research and development.
